PROFESSIONAL EXPERIENCE

Fx Artist

MPC Film, Montreal, CA | Apr 2022 - Apr 2023

- Produced a diverse range of lifelike visual effects, encompassing destruction, smoke, fire, water, and more.
- Worked with lighters and compositors to ensure shots are delivered efficiently and to the very highest standard
- Used to make timely adjustments to simulations in response to feedback from clients and supervisors.
- Assisted the team in troubleshooting problems and acquiring new skills and techniques.

Fx TD

PixelFrames VFX Studios, IND | Mar 2020 - Mar 2021

- Developed structured resources, scripts, pipeline tools and configurations to streamline workflows efficiently, enabling other crew members to utilize them.
- Used to do R&D, create and documentize digital assets and rebuild a existing setup to make artist friendly for replicating in similar shots.
- Managing multiple tasks and maintaining high productivity levels in demanding work settings.
- Develop API endpoints for integrating external services, ensure seamless communication between software modules, and use Git for version control to manage and push software updates and features.
- Collaborated with multiple supervisors to attain the desired standards of aesthetic excellence, technical precision, and effective communication, frequently experimenting with diverse methods and visual styles.
